

## Agreement for Postpartum Doula Services

### Description of a Postpartum Doula

A postpartum doula is there to help a new family in those first days and weeks after bringing home a new baby. Services include, but are not limited to, help with self-care recovery, postpartum comfort measures, infant care, parenting information and assistance with learning to feed and take care of your baby, as well as other practical services.

Postpartum doula services for a family last anywhere from a few days, up to a few weeks or even months after delivery.

Please review the below and sign. We will hold the doula's availability for 5 business days starting the day you receive this contract.

### Disclaimer

Doulas are not doctors or midwives, and do not practice medicine, nor diagnose and treat postpartum related symptoms. Information presented in our meetings and conversations is not intended as a substitute for the medical advice of a properly licensed health care professional. In addition, doulas do not make specific health claims or promise medical results. We provide education and guidance, and postpartum and breastfeeding support. **At no time is the Doula to be in the home without the birthing person there. In addition, the Doula at no time is ever allowed to drive any member of your family.**
